

TUMBLOX

TUMBLOX – Think outside the box and spin the inside boxes!

December, 7th 2011 - Halle/Deutschland
Puzzle game Tumblox now available in the flavors
“free2play” and “full version with all levels”!

About Tumblox:

Just a big box full of smaller boxes - it can't become easier! So instead it gets harder: **TUMBLOX**, the new mind-bending puzzle game for **iPhone and iPod Touch**, is now available for free to play on the AppStore, brought to you by **Rat King Entertainment**.

The player's task is to guide all colorful cubes on their respective targets, with nothing more than the gravity at your disposal. Rotate the boxes and twist your brain with buttons, swiping gestures and the iDevice's orientation.

The game is packed with **more than 80 carefully handcrafted puzzles**, from simple and soothing levels to mind-boggling rotation feasts.

Portals and three dimensional levels bring a surprising depth to the simple but addictive gameplay, an additional challenge for everyone's brain cells. It is also possible to earn gold stars by being especially clever and fast!

You can try **TUMBLOX** on your iPhone or iPod Touch at <http://bit.ly/tumgame> on the AppStore, or buy all levels directly for \$1.99 (€1.59) via <http://bit.ly/tumfull>.

About the Rats:

Rat King Entertainment is a Germany-based indie-developer with a soft spot for genre mixed experimental games. The team consists of Jana Reinhardt and Friedrich Hanisch who love to craft their games for iOS devices. Their last game was the **Roguelike PITMAN**.
